

MSR 12 plug-in ECG module

This plug-in module serves to record an ECG signal. The unit can also compute the pulse (heart rate).

Measured parameters:	ECG Pulse
Resolution:	ECG: 1 value Pulse: 1 bpm
Measurement rate:	200 Hz
Storage rate:	ECG: 200/s, 100/s, 50/s Pulse: 1/s, every 10s, every 30s, every 60s
Input:	ECG signal with 3 electrodes (optional 2 ECG)
Storage capacity:	4 000 000 measurements
Integration with MSR 12:	By qualified personnel
Item number:	B10100
Attachable sensors:	ECG cable with 3 electrodes B10126
